Water Filtration Systems

FP2-W-K1

2 Stage Basic Water Filtration System

Made in EU

General Description:

AQUAFILTER FP3-2 - two-stage under-counter water filtration system is made of the following filter cartridges:

FCPS5 which removes sediment impurities such as sand, rust, and suspensions of not less than 5 μm, and carbon based **FCCBL** filter cartridge, which removes chlorine, some pesticides and organic substances.

The system is sold with a standard set of cartridges, connection adapters, filter faucet and housing wrench.

Depending on the quality of the water, system can be freely configured with the use of sediment, specialty and carbon filter cartridges.

Features:

- High quality
- Competitive pricing
- Fast product delivery
- A wide range of interchangeable water filter cartridge types
- Made in EU
- Compact, undercounter, and apartment size
- Manufactured from FDA CFR-21 compliant materials
- Two Stages of Filtration
- Easy to install with System Specifications
- Systems equipt with modern faucet and all installation accessories

Recomendations for Use:

- Point-of-Use (POU) systems can filter out bad tastes, colors or odors, which pose no health risk but still affect the water quality
- This system will improve the flavor of water used for drinking and cooking
- Perfect for almost any household and will easily fit into any space
- Kitchen compact, undercounter, home and apartment
- Recommended for Families
